FEDERAL EMERGENCY MANAGEMENT AGENCY

Proposed Flood Hazard Determinations for Washington County, RI (All Jurisdictions)

The Department of Homeland Security's Federal Emergency Management Agency has issued a preliminary Flood Insurance Rate Map (FIRM), and where applicable, Flood Insurance Study (FIS) report, reflecting proposed flood hazard determinations within Washington County, Rhode Island (All Jurisdictions). These flood hazard determinations may include the addition or modifications of Base Flood Elevations, base flood depths, Special Flood Hazard Area boundaries or zone designations, or the regulatory floodway. Technical information or comments are solicited on the proposed flood hazard determinations shown on the preliminary FIRM and/or FIS report for Washington County, Rhode Island (All Jurisdictions). These flood hazard determinations are the basis for the floodplain management measures that your community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program. However, before these determinations are effective for floodplain management purposes, you will be provided an opportunity to appeal the proposed information. For information on the statutory 90-day appeal period provided for appeals, as well as a complete listing of the communities affected and the locations where copies of the FIRM are available for review, please visit FEMA's website at www.fema.gov/plan/prevent/fhm/bfe, or call the FEMA Map Information eXchange (FMIX) toll free at 1-877-FEMA MAP (1-877-336-2627).

The proposed FIRM maps for the Town of Hopkinton are available for public viewing to ascertain whether any proposed changes may affect your property. FIRM Maps are located in the Town Hall Clerk's Office, One Town House Road, and the Building and Zoning Office, 395 Woodville Road.
