

The Town of Hopkinton utilizes funding from HUD and USDA to offer **low interest home repair loans** to its low income and elderly residents. Interest will range from 0 to 3%, depending on income.

These loans are intended to ensure folks remain in their homes by performing reasonable and necessary repairs. We focus on code violations, health and safety issues, and any other repairs needed to maintain a healthy safe and sanitary dwelling.

Washington County Community Development Corp (WCCDC) is the non profit agency that manages this program for the Town.

**We help with roof, window, electric, plumbing and structural repairs that are necessary for your health and safety. Call us today for more information or to fill out an application.**

**We look forward to helping you.**
