RE: Wood River Health Services, Inc.

Special Use Permit,
Waiver Requests.

Dear Mr. Chairman and Zoning Board Members,

On behalf of Wood River Health Services, Inc. we would like to request, that the following items be considered as a waiver to the Special Use Permit Application. This document outlines the rationale for such a request. Those specific items as they appear on the Special Use Permit application are as follows;

Item C:

Soil erosion and stormwater control plan

Site, at present, is completely developed with no evidence of soil erosion. The new addition will have minor grade alterations (within 1'-0") and will have no relative impact to soil erosion and stormwater control. The new impervious material created is insignificant and discharge will not be altered. The parking area in question, at present, will not be altered and presently maintains its own stormwater control on site.

Item D:

Letter from a biologist

There are no freshwater wetlands in the immediate proximity of the proposed addition. Site plans have been developed and prepared by Professional Engineers throughout the course of events, and changes that have taken place over the years. The location in which the addition is planned is already graded with loam and seed. A letter from a biologist, would seem to be a mute issue.

Item F:

Traffic Study

The proposed addition as compared to the existing facility will have no adverse impact on traffic, whatsoever, nor will it hinder or be an inconvenience to the existing traffic patterns. The initial parking area planned, as it exists today, exceeds the required parking spaces needed for its present and proposed addition. The access road as originally designed now has a secondary ingress/egress onto Route 3 (Main Street). One now has the option to turn right or left out of the parking area. Site visibility entering and exiting the access roads are very good, and the distance to the nearest intersection is a safe condition.

We are available anytime if you should have any questions and/or concerns. Please call anytime.

Very Truly Yours,
