

DATE: 26 September 2022 [Via Email]

TO: Ms. Talia Jalette, Town Planner
1 Townhouse Road
Hopkinton, RI 02833

RE: **Hopkinton Industrial Park – General Warehousing Project**
Request for Continuance

FROM: Alfred W. DiOrio, PLS, CPESC

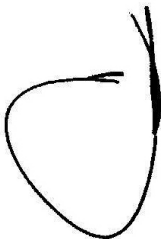

Ms. Jalette:

In reference to the above project, please find this correspondence respectfully submitted to request a continuance in this matter until the January 2023 Planning Board meeting.

As previously stated, we have submitted our project application to the RIDEM Wetland section. However, given the volume of applications that they have recently received, we predict it will be some time until we receive any review and/or comments. We will be submitting our project applications to RIDEM OWTS and RIDOT for PAP in the near future. Again, we anticipate wait times for these various agencies to review our submission and provide comments back to us.

It is quite possible that we will need to be in touch as we get closer to the January 2023 date for another continuance as it is all driven by these application submissions (so as to complete the local submission checklists. Also, the applicant agrees to an extended window for review.

Thank you in advance for your consideration.
